DECORATION METHODS

Every hat is custom made with your logo. All embroidery is stitched in our shop on Barudan machines, and every patch is sewn down, never heat pressed.

FLAT EMBROIDERY

Our standard decoration: your logo is stitched directly into the hat with thread, so it lies flat and clean. Included on the front, and the only option for the sides and back.

3D PUFF EMBROIDERY

Stitched over a layer of foam, so your logo is raised off the front of the hat for a bold, dimensional look. Best for bold shapes and block letters.

LEATHER PATCH

Genuine rawhide leather with your logo laser-etched, sewn onto the front of the hat. A rustic, outdoor or premium look.

EMBROIDERED PATCH

A patch made of stitched thread with a merrowed (stitched, rolled) edge, sewn onto the front of the hat for a classic stitched-patch look.

WOVEN PATCH

Very fine thread woven together, so it shows small text and detail that regular embroidery can't. Thin and flat, with a merrowed edge.

PVC PATCH

A molded rubber patch that is flexible, bold and weatherproof, with raised color. Great for outdoor, work and sports hats.

WHERE CAN MY LOGO GO?

Front: any decoration. Left side, right side and back: flat embroidery only.

NOT SURE WHICH METHOD FITS?

Tell us what you're decorating and we'll recommend the best option for your logo, budget and deadline.

ontimepromo.com/services

Our art team emails you a proof before anything is made, and nothing goes into production until you approve it.

Pricing includes basic front embroidery. Patches or other locations are extra.
